DOWNTOWN EASTSIDE CONNECTIONS

DTES Connections **provides opioid replacement therapy** (i.e. methadone, suboxone) to people in Vancouver's Downtown Eastside **who do not already have an addiction doctor.**

Our goal is to provide **low-barrier, fast access to treatment** in a warm, welcoming environment.

Our team includes **doctors, nurses, counsellors, peers, financial aid workers, outreach workers.** We also have a full **pharmacy with pharmacists** on site all day, every day.

If you're not sure about starting opioid replacement therapy, **drop in and talk with us.**

We are a transitional program that will initiate and **stabilize you on opioid replacement therapy**, and then transition you to a community care provider when you're ready.

We can also **help you with other health care** needs you might have.
